You Need To Try

KBeauty is known for its innovative and creative masks. And we're not just talking about sheet masks, which have taken the beauty world by storm. Although sheet masks are always wonderful, there are many more fascinating masks you may not have tried yet! From modeling masks to rubber masks, to masks that bubble on your face, these are the Korean masks you have to try!

For just this week, spend SEK 600 at SKINiD and receive two mystery sheet masks for free!

The Dr. Jart+ Firm Lover Rubber Mask may look a little odd, but it'll leave your skin moist, plump, and glowing. This innovative mask includes a moisturizing serum that you apply to your skin first, before sealing it in with the rubber sheet mask. The mask material contains seaweed extracts, moisturizing panthenol, allantoin, and other botanical extracts, and the superior occlusive properties help the hydrating serum to absorb deeply into your skin.

## Modeling Masks

These trendy masks combine cutting-edge skincare technology with the fun of DIY. The luxurious Shangpree Premium Modeling Mask includes separate packages of black gel mask material and a moisturizing collagen powder. Mix the purifying black gel with the powder in the included bowl, and then apply the mixture evenly over the face. Once the mask sets, peel it off for a refined, purified complexion.

## Splash Masks

Another unique innovation in KBeauty, splash masks like the Blithe Splash Mask Rejuvenating Purple Berry are concentrated moisturizing liquids that you can mix with water and splash over your face for an instant moisturizing and toning boost. Perfect for using in the shower, splash a capful of the liquid over your wet skin, pat it gently into the skin with wet hands, and then rinse it off in the spray.

## Leaf Masks

The A by Bom Floral Leaf Masks contain both a nourishing, hydrating sheet mask, and unique floral “leaf masks” -- small moisturizing patches in the shape of flowers, that can be placed anywhere over the face for extra brightening and anti-wrinkle care. Place the flower patches on extra dry or stressed areas, like the forehead or under the eyes. Then place the full-face sheet mask over the patches

## TIAM Trouble Drying Pink Bubble Pack

If you've never tried a bubble mask before, here's your chance! The TIAM Trouble Drying Pink Bubble Pack is suited for oily and acne-prone skin with its soothing pink calamine-infused clay. Spread it over your face and it will bubble and foam, refreshing your skin and leaving it cleansed and bright.
